Agency: CDPHE

Purpose of Contact: Updated information regarding LLM Cargo Container at 964 yard.

Discussion:

I contacted Mr. Hindman this morning to update him regarding a cargo container of Low-Level Mixed Waste at the 964 yard (see initial contact record dated 4/19/02). I informed Mr. Hindman that there is currently a suspension of operations of specific heavy equipment at RFETS, including crane work. Due to this suspension it is unknown as to when the 776/777 project will be able to relocate this cargo container. We will however continue to perform the requisite inspections of this cargo container in its current location. Once the suspension has been lifted and backlog of work is caught up we will move the cargo container to a CERCLA Hazardous Waste management area or RCRA Permitted unit in a timely fashion.
